

Popcorn Words Mini-Practice Cards

Words that Keep "POPPING UP"!

Words 1-100

by Donna Whyte

Set contains the 100 most common words in English based upon Dr. Edward Fry's Instant Word List (Fry's List). According to his research the first 100 words on his list comprise approximately half of all written materials. These high frequency words should be decodable by readers. Practice cards include the shape, a visual clue for the word and a phrase or sentence that has decodable and other high frequency words, allowing children to practice the word in real reading.

you
